### PROFILE

As a passionate and detail-oriented aspiring backend developer, I am committed to building robust, efficient, and scalable server-side applications. Currently pursuing a Bachelor of Science in Information Technology, I have gained a solid understanding of backend technologies, including Python, Java, SQL, and various database management systems. In addition to my studies, I have worked as a freelance Computer Technician, identifying and resolving technical issues, and maintaining computer systems for various clients. This experience has honed my problem-solving skills and client-oriented approach. I am eager to leverage my technical expertise and innovative mindset in a collaborative environment. My goal is to contribute to the development of high-performing applications that enhance user experiences and drive business growth.

### EXPERIENCE

As a versatile and skilled technology professional, I offer a broad range of services in the areas of computer maintenance, keyboard modification, and hardware support. My roles include:

#### Freelancer Computer Technician

2021-Present

- Providing comprehensive technical support and maintenance to clients in our area.
- Diagnosing and resolving hardware and software issues to ensure optimal system performance.
- Installing, configuring, and updating software and operating systems.
- Performing regular maintenance to enhance system efficiency and prevent future issues.
- Setting up and managing network configurations, including routers and modems.
- Delivering personalized technical support and guidance to clients.

#### Hardware Specialist at Pamantasan ng Lungsod ng Valenzuela

2023-2024

- Maintaining and troubleshooting computer hardware for students and staff.
- Assisting in the setup and configuration of new hardware and peripherals.
- Providing technical support and training to ensure efficient use of school technology resources.
- Collaborating with IT staff to ensure the smooth operation of all hardware systems.

#### Keyboard Modding and Repair

2023-Present

- Customizing and enhancing mechanical keyboards to meet clients' unique preferences.
- Modifying key switches for improved feel and performance.
- Customizing keycaps, backlighting, and aesthetics.
- Performing sound dampening and lubrication for quieter operation.
- Assembling bespoke keyboards tailored to individual specifications.
- Converting Non-Hot swappable keyboards to Hot swappable ones.
